

Northpeak Systems

FY2025 Account Executive Compensation Plan

Effective January 1, 2025 – December 31, 2025

1. Overview

This plan governs on-target earnings for the Account Executive (AE) role at Northpeak Systems for fiscal year 2025. Variable compensation is earned as a percentage of booked revenue across the AE's assigned revenue motions, subject to the attainment floor and terms below.

2. Base Salary and On-Target Earnings

- Base salary: **\$140,000** per year
- Target variable (commission at 100% of quota): **\$120,000**
- On-Target Earnings (OTE): **\$260,000**
- Pay mix: approximately 54% base / 46% variable

3. Annual Quota and Components

The AE carries a total annual quota of **\$2,500,000**, allocated across two revenue motions. Each component is measured against its own quota.

Component	Annual Quota	Weight	Commission basis
New Logo	\$1,500,000	60%	6% of revenue, accelerated (see §4)
Renewal	\$1,000,000	40%	3% of revenue, flat

4. Commission Structure

Commissions are paid as a percentage of booked revenue and calculated on a **marginal** (tiered) basis: revenue in each attainment band earns that band's rate.

New Logo accelerators, by attainment of the New Logo quota:

Attainment of New Logo quota	Commission rate
0% – 100%	6%
100% – 150%	9%
150% and above	12%

Renewal pays a flat **3%** of revenue at all attainment levels (no accelerators).

5. Attainment Floor

No commissions are earned until the AE reaches **40%** of total quota attainment (threshold floor). At and above 40%, commissions are paid per \$4.

6. Payout Frequency

Commissions are calculated and paid **quarterly**.

7. Clawback

Standard clawback applies to cancellations within 6 months of booking.

8. Worked Example (100% attainment)

At exactly 100% of each component quota:

- New Logo: $\$1,500,000 \times 6\% = \$90,000$
- Renewal: $\$1,000,000 \times 3\% = \$30,000$
- **Total commission at 100% = \$120,000**, equal to the target variable.
